

1. "Minor moments of the Wishart distribution", (2007), *The Annals of Statistics*, to appear, (with Mathias Drton and Ingram Olkin)
2. "Conjugate priors for nondecomposable graphs", (2006), *Proceedings of Prague Stochastics 2006*.
3. "Wishart distributions for decomposable graphs", (2007), *The Annals of Statistics*, **38**, No 3, (with G. Letac).
4. "Efficient Simulation of Hyper-Inverse Wishart Distributions in Graphical Models", (2007), *Biometrika*, To appear, (with Carlos Carvalho and Mike West ).
5. "A Monte Carlo method to compute the marginal likelihood in non decomposable graphical gaussian models" (with Aliye Atay-Kayis). *Biometrika*, 2005.
6. "The Wishart distribution and the Matsumoto-Yor property" (with J. Wesolowski), *The Journal of Multivariate Analysis*, 2005.
7. "The Matsumoto-Yor property on trees", (2004) (with J. Wesolowski). to appear in *Bernoulli*.
8. "The Hyperoctahedral Group, Symmetric Group Representations and the Moments of the Real Wishart Distribution", (2005) (with P. Graczyk and G. Letac). to appear in *Journal of Theoretical Probability*.
9. "All invariant moments of the Wishart distribution", (2004) (with G. Letac), *Scandinavian Journal of Statistics*, **31**, 295-318.
10. "The moments and inverse moments of the complex Wishart distribution", *The Annals of Statistics*, 287-309, (2003), (with P. Graczyk and G. Letac).
11. "Les moments des lois de Wishart, les arbres binaires et les produits triples", *C.R. Acad. Sci. Paris*, **333**, Série I, 377-382, (2001), (with G. Letac).
12. "The normal-Wishart distribution: a characterization", in "Algebraic Methods in Statistics and Probability", **287**, Contemporary Mathematics, 231-239, (2001), (with G. Letac).
13. "A expectation formula for the multivariate Dirichlet distribution", *Journal of Multivariate Analysis*, **77**, 111-137, (2001), (with G. Letac and D. Richards).
14. "Representations of the Wishart distributions", Contemporary Mathematics, **261**, 121-142 (2000), (with G. Letac).
15. "All the moments and inverse moments of the Wishart distribution" *Volume in honor of Holger Peterson*, Seminarberichte aus dem Fachbereich Mathematik, **68**, 309-339, FernUniversität, (1999), (with G. Letac)
16. "On the existence of the maximum likelihood estimate in variance components models", *Sankhya Ser A*, **61**, Series A, (1999), (with E. Demidenko).

17. "A formula on multivariate Dirichlet distributions", *Statistics and Probability Letters*, **38**, (1998), 247 - 254, (with G. Letac).
18. "Quadratic and inverse regression for Wishart distributions", *The Annals of Statistics*, **26**, (1998), (with G. Letac).
19. "A test for the equality of the direction parameters in a sample from the N-dimensional hyperboloid distribution", *Journal of Statistical Planning and Inference*, **74**,(1998), 229-251, (with M. Casalis).
20. "Estimation and testing for lattice conditional independence models on simple Jordan algebras," *The Annals of Statistics*, **26**, (1998), 1051 - 1082, (with E. Neher).
21. "A formula for the multivariate Dirichlet distribution", *Statistics and Probability letters*, **38**, (1998) 247 -254 , (with G. Letac).
22. "On transformations and determinants of Wishart variables on symmetric cones," *Journal of Theoretical Probability*, **10**, (1997), 867-902 (with E. Neher).
23. "Craig-Sakamoto's theorem for the Wishart distributions on symmetric cones," *Annals of the Institute of Statistical Mathematics*, **47** (1995), 785–799 (with G. Letac).
24. "An exact decomposition theorem and a unified view of some related distributions for a class of exponential transformation," *The Annals of Statistics*, **22** (1994), 369–394.
25. "A decomposition for the exponential dispersion model generated by the invariant measure on the hyperboloid," *Journal of Theoretical Probability*, **6** (1993), 803–816 (with M. Casalis and G. Letac).
26. "A diagnostic function for the saddlepoint approximation to the distribution of an M-estimate of location," In: *Small Sample Asymptotics*, Documenti 4, Universita degli studi di Padova, cleup editore, 1991, pp. 45–72 (with C. A. Field).
27. "An exact decomposition theorem for a sample from the three-dimensional hyperboloid distribution," *Journal of the Royal Statistical Society, Ser. B*, **51** (1989), 235–240.
28. "Mixed primal-dual bases algorithm for regression under inequality constraints. Application to concave regression," *Scandinavian Journal of Statistics*, **16** (1989), 65–74 (with D. A. S. Fraser).
